Submission Text: We at Clonmel RFC submit that serious consideration should be given to rezoning the lands which house the halting site at Ardgeeha, Clonmel, to "amenity" status. Our reasons for this are numerous and are recorded in the many communications with Tipperary County Council, public officials and other agencies over many years - it is not appropriate, and has been so proven, to have a halting site situated adjacent to a busy rugby club which provides such important sporting and social service to the town of Clonmel.

We further submit that a portion of the lands at Ballinagarrane, which have remained unused for many years, be rezoned to accommodate the halting site. We request therefore that the halting site at Ardgeeha, Clonmel, be relocated to Ballinagarrane, Clonmel. This arrangement would be in the best interests of all parties and would be of benefit to the town. It is hoped that this proposal is given the required consideration.
