To whom it May Concern,

I wish to highlight my concerns around the policy for one off housing in Clonmel and its Environs.

I am calling for the Clonmel & Environs LAP 2024-2030 to align with the County Development Plan.

In the County Development plan it states that one off single housing should be permitted on a social need.

(i.e) In Section 5.5 of our County Development Plan it states that lands zoned "Town Environs", that single houses will be permitted with on a social need.

I feel that descendants should be allowed to build in the area where they are from. People are the lifeblood of every community and parish and the local authorities should facilitate their wish to settle in their own community.

Kind Regards

Seamus Lawlor
