**Eircode:**

**County:**

**Submission Text:** The Draft Clonmel Local Transport Plan references a proposal to provide a quietway from Springfields Estate to the Davis Road AT-25. However recent planning application [Redacted] for the area through which this quietway would pass does not include it in the plans - if planning is granted as is, the provision of a quietway won't be possible. Should it be included as a condition of the planning permission?
