Submission to Draft Clonmel & Environs LAP 2024 - 2030

To Whom It May Concern,

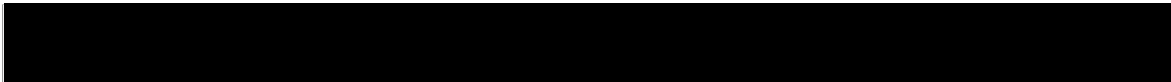

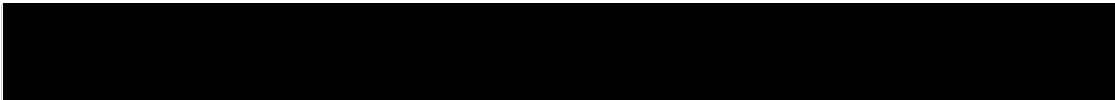

I Brenda and my husband Kevin wish to highlight our concerns around the policy for one off housing in Clonmel and it's Environs .

I am calling for the Clonmel & Environs LAP 2024 - 2030 to align with the County Development Plan .

In the County Development Plan it states that one off single housing should be permitted on a social need.

We feel that descendants should be allowed build in the area they are from.

People are the lifeblood of every community and parish and the local authorities should facilitate their wish to settle in their own community.

We think it is only right that that someone from an area, who loves and is deeply involved in the community should be allowed to remain in the area they are from and should be allowed to build on their own landholding.

I would therefore hope that the new local plan will align with the County Development Plan

Kind regards,
