Submission to Draft Clonmel & Environs LAP 2024 - 2030

To Whom It May Concern,

I wish to highlight my concerns around the policy for one off housing in Clonmel and it's Environs .

I am calling for the Clonmel & Environs LAP 2024 - 2030 to align with the County Development Plan .

In the County Development Plan it states that one off single housing should be permitted on a social need.

I feel that descendants should be allowed build in the area they are from.

People are the lifeblood of every community and parish and the local authorities should facilitate their wish to settle in their own community.

I am concerned that the current draft plan would not facilitate my neighbour [REDACTED] to build beside [REDACTED]

I and many others in the local community hope they are successful in their application this time around.

Kind regards,

[REDACTED]
