Eircode: [REDACTED]

County: [REDACTED]

Submission Text: Hi..i just want to make a few points in relation to our town as a native of Clonmel . The amount of empty buildings in town is unacceptable. You need to get more shops into the centre of town. Possibly by reducing the rates for people.. also needed is a reduction in rates for the current business owners.. the costs of running a business is astronomical and it would help greatly. Another huge problem is the water outages that are constant in our town. Businesses having to close and loss of earnings to staff is not acceptable. .some public toilets are badly needed in Clonmel. .A coffee hub of some sort down at the Kickham Plaza. Should be easily organised... Find out the owners of [REDACTED] and get a compulsory purchase order and change to apartments. The [REDACTED] apparently has been sold but something needs to be done with it.. Parking charges are crippling the town im sure if you care. 6 weeks ago i emailed about the signpost at the end of heywood rd.i saw tonight the sign for suir island has been fixed but the sign for the fire station is still pointing down oneill st. And lastly the amount of people begging in clonmel at the moment is shocking. Its not safe at any stage to venture to the centre of town.. Hope this was useful.
