Re: Submission on the Draft Clonmel Area Plan - Infrastructure, Energy and Utilities - 8.0

I wish to make a further submission to this particular section. As per my previous submission on this section I am asking that the Council could also write into this section that in addition to local companies in this Clonmel Area that the Council would also engage with local schools and members of the farming community with respect to the possibility of installing either solar panels or windmills around their school and farms. They may not be aware that in addition to grants for energy upgrades for households there are also national grants available to support schools, businesses and farmers in relation to these type of energy upgrades.
