

NOTES

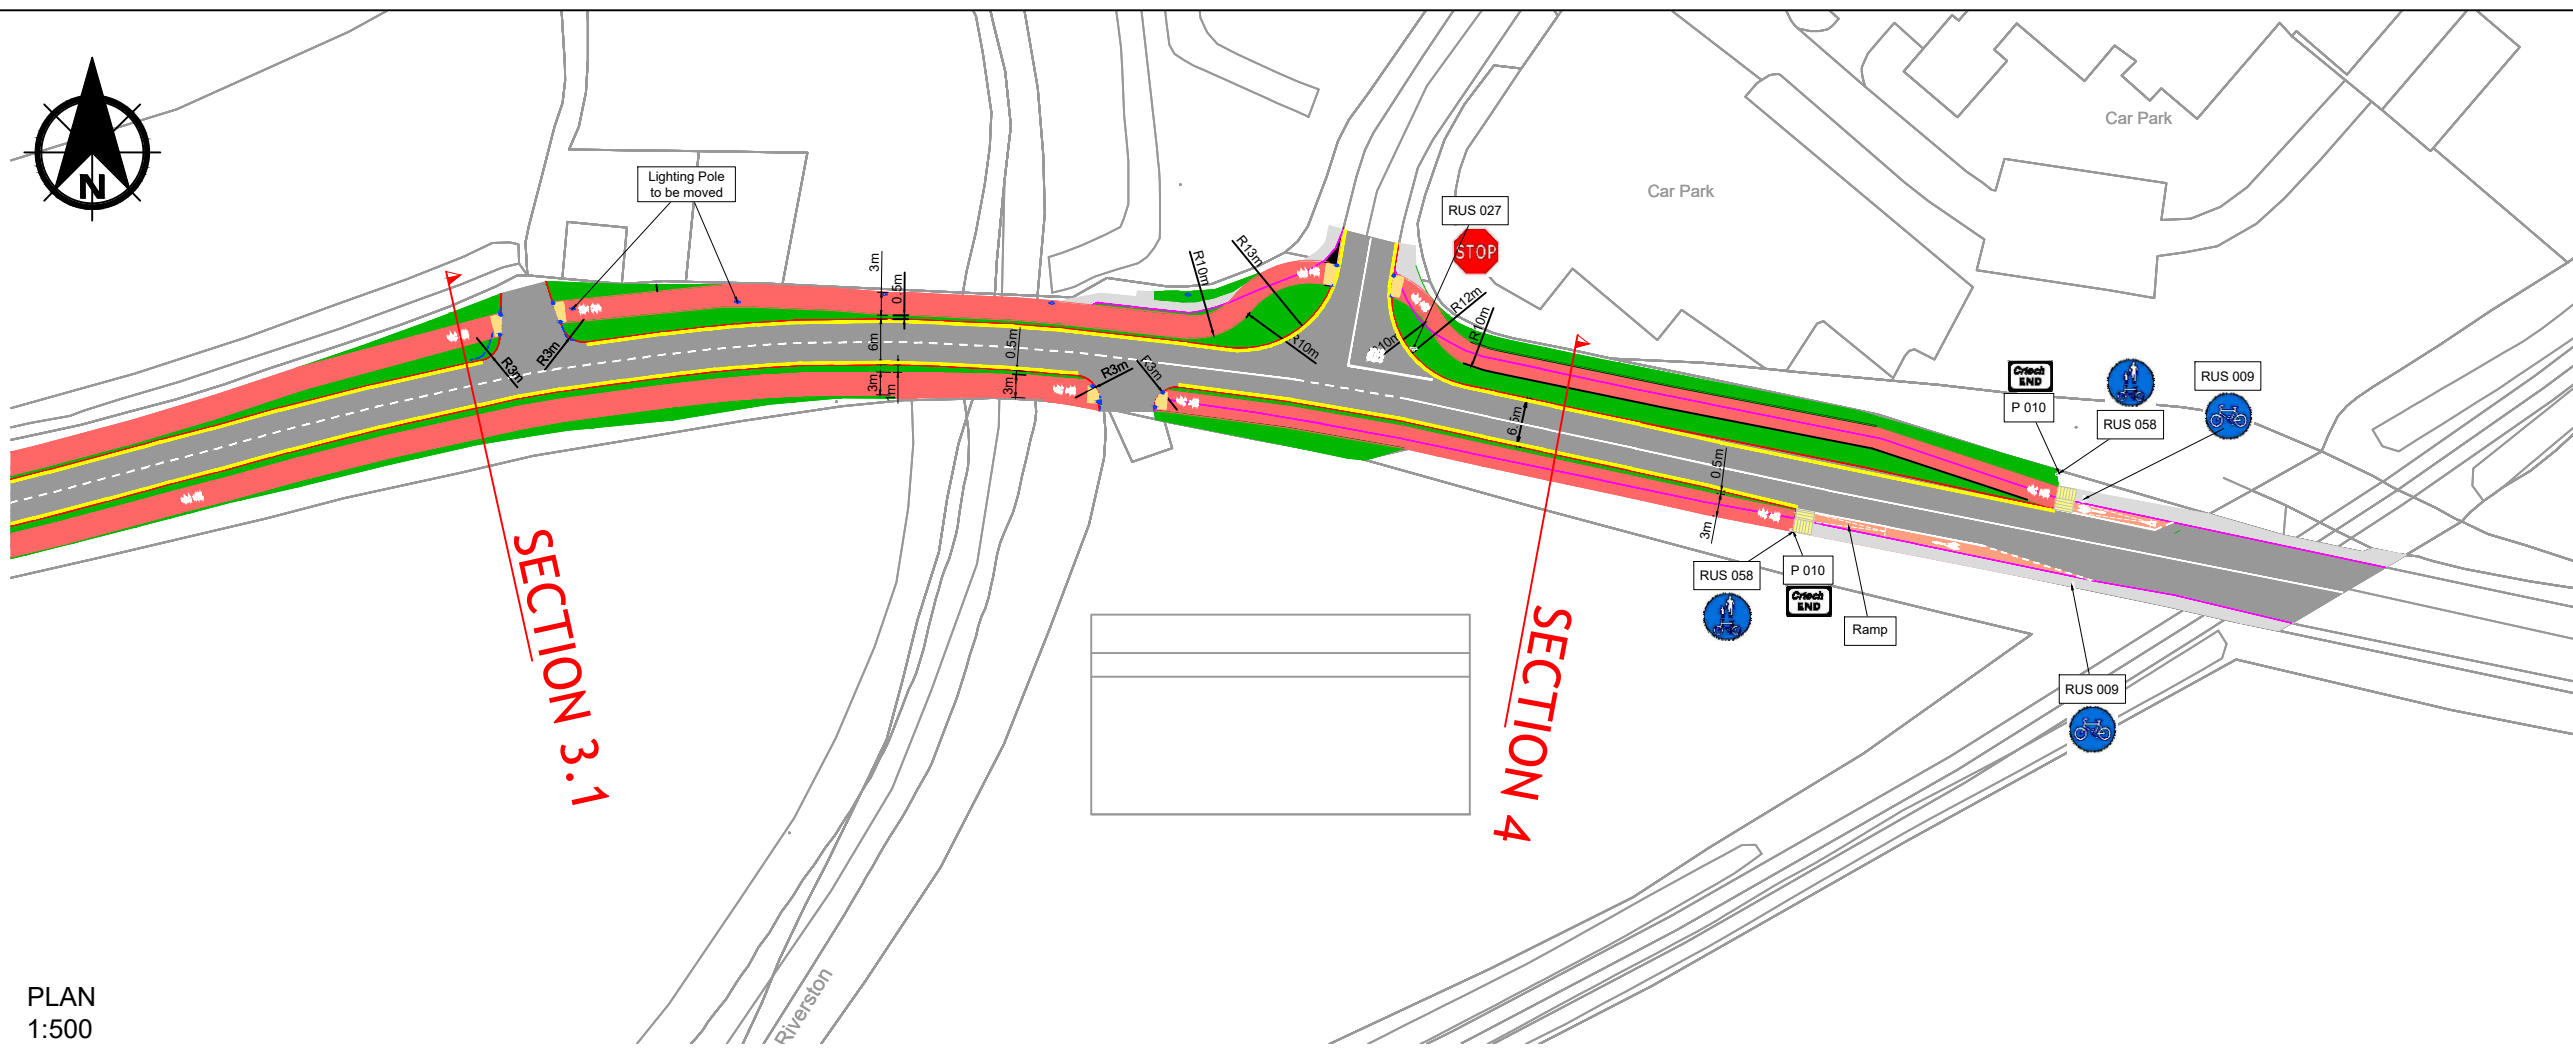

NOTES:

1. All utilities to be identified and protection put in place in accordance with the utility providers requirements prior to the commencement of construction stage.
2. Modify existing kerb/footpath at junctions and entrances to reduce corner radii and improve pedestrian and cyclist safety.
3. Location of signage to be agreed, on site, with the local authority before erecting.
4. Gully locations to be offset to revised kerb line locations.
5. Dished kerb to be provided along existing wall at locations where existing footpath level is considerable lower than carriageway level. Therefore, crossfall towards existing wall is required at these locations.
