

SOGs Regarding Abusive Social Media Posts Directed at Housing Staff

Date: 10th December 2024

Version: 1.1

Introduction:

Social media platform usage is growing in popularity. It allows individuals to connect, interact, communicate and provoke discussions between a wide geographical range of people. However, it can also be used to spread false or misleading information and bully, harass or intimidate individuals, leading to dire consequences. The use of abusive, threatening, offensive, indecent or obscene posts on social media platforms which specifically names or alludes to housing staff will not be tolerated by the Housing Department of Tipperary County Council.

Purpose:

Where abusive social media posts are uploaded and specifically reference or allude to Tipperary County Council housing staff in an abusive or threatening manner, the following steps and also including the procedures laid out in Appendix 3 of the Councils Customer Charter "*Policy on dealing with abusive, persistent or vexatious complaints*" will be followed: -

Notification of the Abuse:

- a) The incident will be reported to the relevant line manager by completing the appropriate organisational incident form ([LOCATION](#)) and entered on the incident register. Staff member to take a screen shot of the comment and of the individuals page who made the comment.
- b) The staff member to be spoken to and offered support if this is required by their line manager. The Employee Assistance Programme (EAP) is one support in place for the wellbeing of all staff. Please see Appendix 1 on how to navigate the EAP on Sharepoint.
- c) If the individual who erected the post is known to the Housing Department of Tipperary County Council, they will be asked by the relevant line manager (by phone and/or in writing) to remove the post and offer an apology on the same platform where the abuse took place to the individual in question & the consequences of not doing so outlined to

them. This will be noted on the incident report and a timeline given for same.

- d) If they refuse to remove the post, the line manager will report same to An Garda Síochána and also request IT to seek its removal, if possible. This will also be noted on the incident report. Consequences will then be considered as outlined below.
- e) Where the individual is unknown to Tipperary County Council or the comments have been uploaded under a false name, IT will be asked to remove same, if possible. An Garda Síochána will also be advised and appropriate action requested, including advising the line manager of the name if known.

Consequences:

- a) Where the individual has refused to remove the abusive social media post and offer an apology on the same platform where the abuse took place and is known to the housing staff, repercussions will match the individual circumstances (including due cognisance of the severity & on-going persistence of the social media user) and may result in the following:

It will be considered to constitute "anti social behaviour" as per their Tenancy Agreement, and/or
 - (ix) The Housing department may also continue to extend such consequences in exceptional circumstances and will review such situations on a quarterly basis.

Change Required in Housing Policy Documents as a Consequence of this:

- 2) Anti-Social Behaviour Strategy 2016 –Currently this strategy is being revised and it may include that *‘the use of abusive, threatening, offensive, indecent or obscene posts on social media channels which specifically names or alludes to staff members will not be tolerated by the Council, such incidents will be dealt with under the terms of the document SOGs Abusive Social Media Posts Directed at Housing Staff’.*
- 3) Housing Allocation Scheme (scheme of Letting Priorities) 2021 – Section 2.7 – to include reference to abusive social media posts.

Conclusion:

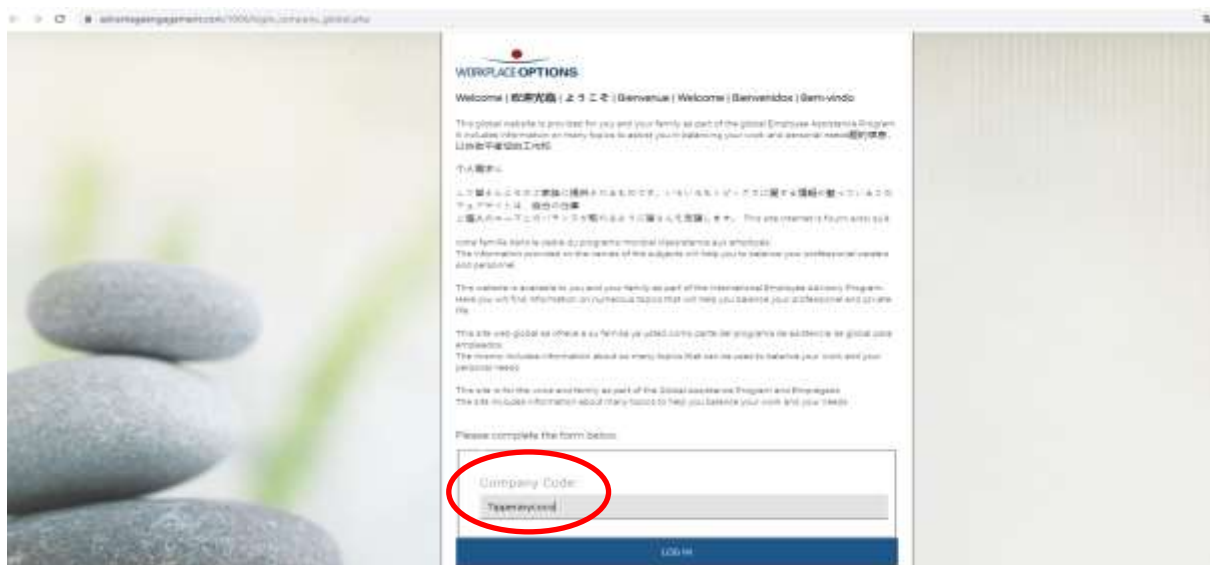

The use of social media should be carried out in a responsible manner by all individuals. Abusive social media posts directed at or alluding to housing staff of Tipperary County Council is not an acceptable practice and will not be tolerated. The various consequences of engaging in such behaviour are as outlined above. Line Managers need to support their staff when informed of abusive social media posts directed at them and ensure to make an informed evaluation on the severity of the incident in conjunction with the team member. Corrective actions should be noted in the relevant Risk Assessment. Please note other Housing policy documents will need to be amended so that they are consistent with these SOGs.
